SUBJECT INDEX

A

- Abdominal adhesions, laparoscopic cholecystectomy and, 1094
- Abdominal aortic aneurysm
endovascular repair, swine model, 1070
resection
intensive care units length of stay and, 196
patients over 80 and, 998
- Abdominal wall defect
giant, autologous closure of, 607
new closure material, 415
open sutureless coverage, 854
polypropylene with polyglactin mesh, intraperitoneal adhesion reduction and, 817
wound dehiscence, infection and, 660
- Aberrant thyroid, identification, surgical incision and, 360
- Abscess, cholecystocutaneous, laparoscopy and, 1192
- Absorbable sutures, decay of strength study in rat, 348
- Acalculous cholecystitis
acute, retrospective review, 471
chronic, laparoscopic cholecystectomy and, 1
- Accessory splenectomy, chronic immune thrombocytopenic purpura and, 1077
- Achalasia, laparoscopic Heller esophagomyotomy without antireflux procedure and, 515
- Acquired immunodeficiency syndrome
bedside percutaneous tracheostomy in, 444
hemodialysis access alternative, lower-extremity saphenous vein transportation arteriovenous fistula and, 338
Kaposi's sarcoma of parotid gland, 259
primary gastrointestinal non-Hodgkin's lymphoma and, 137
- Adenocarcinoma
ampulla of Vater, 355
colorectal, patients under 40 and, 563
colovaginal anastomosis complication, end-to-end stapler and, 1023
duodenum, primary nonampullary/periampullary, 1165
esophageal, solitary scapula mass and, 466
gallbladder, prognosis for, case review, 437
occult, breast, positron emission tomography and, 906
outcomes review, 30-year study, 930
pancreatic
intraoperative radiotherapy and, 1043
preoperative *versus* postoperative chemoradiation and, 686
- Adenomas, villous, of rectum, 1170
- Adhesion formation
after implantation of polypropylene mesh, 144
reducing intraperitoneal, polypropylene lined with polyglactin mesh and, 817
- Alcohol abuse, prevalence/effect in trauma patients, 461
- Ampulla of Vater, adenocarcinoid tumor of, 355
- Amputation
iliac artery injury complications and, 833
peripheral vascular disease, sociology of care in, 175
- Anal fissure, topical nitroglycerin and, 962
- Anastomosis
biliary-enteric, single-layer, stentless, 917
colovaginal, end-to-end stapler complication, low anterior resection and, 1023
in unprepared left colon, 821
- Anatomic location
impact on intra-abdominal infections, 402
rectal trauma management and, 1136
- Anesthesia, thoracic epidural, pleurodesis, complete analgesia and, 755
- Aneurysm
abdominal aortic
repair via percutaneous endovascular stenting, swine model, 1070
resection, intensive care units length of stay and, 196
resection, patients over 80 and, 998
jejunal cirroid, 1179
proximal subclavian artery, 323
superior mesenteric artery, 45 years later, 263
- Angiographic embolization *versus* orthopedic external fixation in unstable pelvic fracture, 862
- Angiography
cerebral, Egas Moniz and, 1116
visceral, pancreaticoduodenectomy and, 758
- Angioplasty, percutaneous transluminal, combination with open treatment in peripheral arterial occlusive disease, 581
- Anorectal cancer
laparoscopic abdominoperineal resection for, 12
melanoma, long-term survival after, 245
- Anterior extrapleural approach, thoracolumbar junction and, 372
- Anterior knee dislocations, pediatric, trampoline and, 1183
- Antibiotics, prophylactic, tube thoracotomy for chest trauma and, 617
- Anticoagulation, post inferior venous caval filter placement and, 419
- Antireflux surgery
laparoscopic Nissen fundoplication, quality of life/antireflux medication use after, 509
prosthetic patch stabilization, pediatric crural repair, 67
- Aorta
descending thoracic
arterial embolic disease and, 1079
penetrating trauma to, 1158
elective surgery, minimal banked blood and, 171
- Aortoiliac occlusive disease, gastrointestinal malignancy, changing therapeutic options, 293
- Appendectomy
emergency
with rupture, clinical pathway for, 593
without rupture, clinical pathway for, 378
laparoscopic, 231
- Appendicitis
management outcome *versus* other intra-abdominal infections, 402
perforated, surgical urgency of, 970
right lower quadrant pain and, 7
white blood cell count, disease severity and, 983
- Arterial embolic disease, descending thoracic aorta and, 1079
- Aspergillus* in soft tissue infections, 122
- Atherosclerotic aneurysm, 323
- Axillary lymph nodes, breast cancer
micrometastases, reverse transcriptase-polymerase chain reaction screening for, 539
sentinel, γ -probe-guided resection of, 666
staging, 28
- Axillofemoral graft, aortoiliac occlusive disease, gastrointestinal malignancy and, 293

B

- Bedside percutaneous tracheostomy in AIDS, 444
- Bedside test, diagnostic peritoneal lavage fluid in blunt trauma, 112
- Bile duct
carcinoma, 921
injuries to
